PRODUCT REVIEW

Every **BirthDay party** is an exciting occasion for a child, with friends family, birthday cakes, presents and entertainment. Though entertaining, they are not easy on the wallet or for the environment.

How does an aftermath of a kids birthday party look like?? Loads of non bio degradable plastic cups and spoons littering the whole place. So why not consciously change some things to help the environment and say NO to Plastic!!!

Yes I can hear you, eco tableware products are not readily available and bit expensive too, and it would bloat the budget for a birthday party. Now there is a solution for hosting a Eco Friendly Birthday Party through Ecoware.

Ecoware – Eco Friendly Tableware

Ecoware is India's first and only manufacturer of 100% bio degradable and compostable tableware.

These products are completely hygienic and affordably disposable.

Ecaware can be used in birthday parties, [travel](#), vacations, kids excursions or in any event that calls for disposables.

How is Ecaware manufactured?

Ecaware products are manufactured by high temperature moulding of biomass (plant extract or residue) into the desired shape and size using precisely designed moulds. The heat induced pressing gives structural strength to the product and the inter-fiber bonding gives it water and oil resistance.

Advantages of using Ecaware

- Ecaware is 100 % biodegradable, if you throw an ecaware product on ground, it will degrade into natural compounds and disappear into the soil in 30-60 days.
- Ecaware is Nontoxic, harmless and healthy, as it uses only plant [biomass](#) without any additives, binders, fillers.
- No plastic or wax lining. The plastic disposables or Styrofoam have a [wax lining](#) which have known to cause [cancer](#).
- No pesticide or chemical residue
- Does not impart colour, odour or taste to food.
- Ecaware can be used to serve both hot and cold food items.
- They can be used in a microwave oven and refrigerator.
- The products have a shelf life of 2 years.

Certification

The products have been accredited by the [USDA](#) Biobased Product Label for 100% Bio degradable Table ware.

It also has the ISO 9001:2008 certificate. Click [here](#) to know the positive test certification from other agencies

Product Range

As you can see from the below image they have an attractive list of products ranging from plates, bowls, tray etc.

1. Plates

The plates available in sizes of 6,7,8,10, 12 inches and a compartment plate.

2. Bowls

The bowls available in 180ml, 240 ml, 340ml and square plate.

3. Trays

5 compartment and square trays are available.

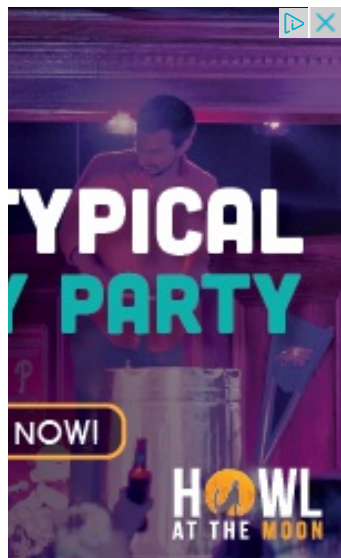

4. Boxes

The hamburger box can be used as tiffin boxes for kids too.

Where to buy?

Ecoware products are available on [AMAZON](#) and Snapdeal.

You can contact for bulk orders through their [website](#) or their [Facebook Page](#)

Hello !!

Hi,
I am Dr.Hemapriya, a.k.a the "Doctor Mommy". I am a medical doctor by profession, no longer into active medical practice as my two little moppets keep me pretty much busy. But, this has not stopped me from putting my medical knowledge to good use. I bring my medical knowledge to address parenting issues for new and recent mummies.
